English Language Program — Grade 12 Graduate

- **Honor:** Graduated with High Honors (Grade A all levels) in GESL (General English as a Second Language).

TECHNICAL SKILLS

Programming Languages (ordered by proficiency): JavaScript, C++, Python, SQL, C

Tools and Frameworks: Vue.js, Next.js, Bootstrap, Node.js & Express, MySQL, Docker, Git & GitHub, VS Code, Postman

Interests: Backend Engineering, Machine Learning

RELEVANT EXPERIENCE

ANTPAY | ANT Technology Training Center

May 2026 - Jul. 2026

Full-Stack Payment Management System (Internal System) | Group Leader & Backend Developer

- Led a team of 5 to design and develop a full-stack payment management system featuring invoice generation, transaction tracking, role-based access control (RBAC), and a bilingual (**Khmer/English**) UI.
- Built a full-stack system with 25+ REST endpoints — **Node.js/Express** backend with **JWT** authentication, **RBAC**, and financial modules (**invoices, expenses, budgets**), paired with a **Vue.js** role-based dashboard.
- Designed a normalized **MySQL** database schema and deployed the application on **Linux** using **PM2** and **Nginx**, collaborating through **Git** and **GitHub**.

VETIKA | ANT Technology Training Center

Oct. 2025 - Feb. 2026

ANT Student Community Web Platform | Group Leader & Frontend Developer

- Led a team of five to develop **VETIKA**, a student community platform featuring authentication, profile management, news feeds, and real-time messaging.
- Developed the administration module with a **Content Management System (CMS)**, analytics dashboard, role-based management, and CSV/PDF report generation. Deployed and lives at [VETIKA\(User\)](#) and [VETIKA \(Admin\)](#).

Smakjit (Volunteer) | ANT Technology Training Center & RUPP Academic Project

Sep. 2025 - Jun. 2026

Volunteer Community Platform | Group Leader & Full-Stack Developer

- Built **Smakjit** from a static **HTML/CSS/Bootstrap** site into a production-ready full-stack volunteer platform for the RUPP Year 3 capstone project. Successfully presented at RUPP Year 3 capstone review
- Developed the frontend using **Next.js** and the backend using **PHP/Laravel**, implementing volunteer registration, authentication, and project management features. Deployed and lives at [Smakjit](#).
